Monday, November 8, 2021

12:00 – 12:15 pm
Welcome and Opening Remarks

12:15 – 1:45 pm
Keynote Session and Panel Discussion – Personalizing Big Data

Moderators:
Dr. Claudia Kleinman  
McGill University, Lady Davis Institute
Dr. Don Desserud  
Patient Partner

Dawn of Digital Pathology: Leveraging AI for Cancer Biomarker Discovery
Dr. Ali Bashashati  
University of British Columbia, Vancouver Coastal Health Research Institute

Using Big Data to advance Precision Medicine in Oncology: Opportunities and Challenges
Dr. Hermann Nabi  
Social and Preventive Medicine, Université Laval

PROFYLE: The Canadian Pediatric Precision Oncology Initiative
Dr. Rebecca Deyell  
Pediatrics, University of British Columbia

1:45 – 2:00 pm
Break

2:00 – 3:00 pm
ORAL 1A - Concurrent Session with Q&A - Tumour Microenvironment and Immunology

Chairs:
Dr. Paola Marcato  
Dalhousie University, Beatrice Hunter Cancer Research Institute
Mrs. Heather Hogan  
Patient Partner

Investigating Intra-Tumour Metabolic Heterogeneity in Triple-Negative Breast Cancer
Marina Fukano  
McGill University

Harnessing synthetic lethality to drive ferroptosis in hypoxic solid tumours
Dr. Shawn Chafe  
BC Cancer Research Institute

Cancer cell plasticity leads to the activation of progenitor-like signaling pathways and immune checkpoint genes
Dr. Iacovos Michael  
Sunnybrook Research Institute
ORAL 1B -Concurrent Session with Q&A - Cancer Clinical Trial Approaches

Chairs:
Dr. Madeline Li  
University Health Network, Princess Margaret Cancer Centre
Ms. Nathalie Baudais  
Patient Partner

The Rethinking Clinical Trials (REaCT) program: leading pragmatic, practice-changing, patient-centred research across Canada  
Dr. Mark Clemons  
Ottawa Hospital

PAROLE-Onco, accompanying patients as members of the care team: mirage or reality?  
Dr. Marie-Pascale Pomey  
Centre de recherche du CHUM

Protocol for implementing a national exercise oncology program: Project EXCEL  
Dr. S. Nicole Culos-Reed  
University of Calgary

ENGAGEMENT SESSION - Indigenous-Led Research & Data Governance in Cancer Control: Acknowledging the Heart, Spirit & Mind of Indigenous Data

Facilitator:  
Melissa Cernigoy  
Canadian Partnership Against Cancer

Indigenous-led research and data governance in cancer control is an emerging area of science that requires specialized knowledge and expertise. For example, current gaps in Indigenous cancer research and data systems exist within Canada while little exploration has been done to summarize existing promising practices in Indigenous cancer control data and research. In response, the Canadian Partnership Against Cancer is working with an Indigenous Team, including the Alberta First Nations Information Governance Centre to undertake an environmental scan and engage relevant stakeholders on a regional, national and international scale. The project is designed to address the following aims:

1. To inform the implementation of the CPAC 2022-2027 Business Plan to be responsive to new and existing partner needs and aligning actions with the health system for FNIM governed research and data systems
2. To synthesize and integrate the key findings of the environmental scan engagement components for people-specific Indigenous governed research data systems and promising practices in cancer control data and research

This presentation will meet the following 3 objectives:

1. Provide an overview of the project, including guiding questions and primary activities
2. Present key findings from the environmental scan of published literature, Indigenous-led research, and relevant organizational reports, documents and frameworks
3. Discuss a holistic Indigenous model developed for data and information synthesis and interpretation grounded in Indigenous knowledge and conceptualizations of heart, spirit and mind

Dr. Angeline Letendre  
Canadian Indigenous Nurses Association, Alberta Health Services

Ms. Lea Bill  
Canadian Indigenous Nurses Association
### 2:00 – 2:30 pm

#### LS 1A - Lightning Session and Discussion - Palliative Care

<table>

<tr>
<td>Lung cancer care in Saskatchewan and Ontario: An interprovincial analysis of patient characteristics and survival outcomes</td>
<td>Mr. Dmitry Neymark</td>
<td>University of Saskatchewan</td>
</tr>
<tr>
<td>Preliminary evaluation results of the integrated knowledge translation approach utilized in the Canadian Population Attributable Risk of Cancer (ComPARe) study</td>
<td>Apiramy Jeyapalan</td>
<td>Canadian Cancer Society</td>
</tr>
<tr>
<td>The use of complementary medicine among individuals with cancer: Standardizing assessment and documentation and evaluating prevalence and associations of use</td>
<td>Dr. Lynda Balneaves</td>
<td>University of Manitoba</td>
</tr>
<tr>
<td>Characterizing the financial burden of advanced cancer: interim analysis of financial effects data from people living with advanced colorectal cancer</td>
<td>Dr. Marc Kerba</td>
<td>University of Calgary</td>
</tr>
</tbody>
</table>

### 3:00 – 3:15 pm

**Break**
3:15 – 4:15 pm

ORAL 1C - Concurrent Session with Q&A - Immunotherapy

Chairs:
Dr. Shashi Gujar
Dalhousie University
Ms. Chantale Thurston
Patient Partner

The spatial immune landscape of cutaneous melanoma
Dr. Ian Watson
Goodman Cancer Research Centre, McGill University

Targeting CXCR2-mediated neutrophil recruitment to non-small cell lung cancer
Mr. Simon Milette
McGill University

Elucidating the Role of the non-Receptor Tyrosine Kinase Fes in Tumour Immune Evasion
Mr. Brian Laight
Queen’s University

ORAL 1D - Concurrent Session with Q&A - Indigenous Cancer Research

Chairs:
Dr. Brenda Elias
University of Manitoba
Ms. Louise Bird
Patient Partner

Re-conceptualizing Metrics for an Indigenous Cancer Indicator Framework on Cancer Screening to Early Diagnosis and through the Cancer Journey
Dr. Angeline Letendre
Canadian Indigenous Nurses Association

Exploring the cancer experiences and outcomes for Metis patients and families in Saskatchewan
Mr. Adel Panahi
Metis Nation - Saskatchewan Secretariat Inc.

The Manitoba Metis Cancer Journey
Ms. Julianne Sanguins
Manitoba Metis Federation

3:15 – 3:45 pm

LS 1C - Lightning Session and Discussion - Blood Cancer

Transient receptor potential vanilloid type calcium channel (TRPV6) as a novel therapeutic target in lymphoid tumours
Dr. Alli Murugesan
University of New Brunswick

Molecular Subtyping of NPM1 mutated AML
Dr. Arvind Mer
Princess Margaret Cancer Centre

Defining the biological significance and role of somatic TMEM30A mutations in diffuse large B cell lymphoma.
Shannon Healy
BC Cancer Agency

A modular activatable synthetic biology system to visualize in vivo cell-cell communication
Mr. TianDuo Wang
Robarts Research Institute

Mathematical modelling of perturbed hematopoiesis during the pre-leukemic phase of AML to evaluate therapeutic strategies for clonal reduction
Mia Brunetti
Université de Montréal
3:45 – 4:15 pm

LS 1D - Lightning Session and Discussion - Pancreatic Cancer

Exploring the effects of SBRT on the pancreatic tumor microenvironment using intravital fluorescence microscopy
Mr. Timothy Samuel
University Health Network

TANDEM: Biomicrofluidic Systems with Transverse And Normal Diffusional Environments for Multidirectional Signalling
Mr. Michael Mohan
University of Toronto

The Role of Neutrophil Extracellular Trap/CCDC25/Integrin Linked Kinase in Pancreatic Ductal Adenocarcinoma (PDAC) Progression and Metastasis
Dr. Paul McDonald
BC Cancer Research Institute

4:15 – 4:30 pm
End of Day Wrap Up

Tuesday, November 9, 2021

12:00 – 12:15 pm
Welcome and Opening Remarks

12:15 – 1:45 pm
Keynote Session and Panel Discussion – Aging Well with Cancer

Moderators:
Dr. Martine Puts
University of Toronto
Ms. Debi Lascelle
Patient and Family Representative

Telomeres in Cancer and Aging
Dr. Ronald DePinho
MD Anderson Cancer Center

Aging well during and after cancer therapies
Dr. Shabbir Alibhai
Medicine, University Health Network

Working with older adults as they manage cancer: Evidence & opportunities
Dr. Kristen Haase
School of Nursing, University of British Columbia

Dignity and Personhood in the Terminally Ill
Dr. Harvey Chochinov
University of Manitoba

1:45 – 2:00 pm
Break
2:00 – 3:00 pm

ORAL 2A - Concurrent Session with Q&A - Precision Medicine and Biomarkers

Chairs:
Dr. Elena Kuzmin
Concordia University, McGill University
Dr. Christine Wu
Patient Partner

- From cell signaling to drug targeting in melanoma
  Dr. Ian Watson
  Goodman Cancer Research Centre, McGill University

- Deciphering intra-tumoral heterogeneity in multiple myeloma: A single cell study
  Dr. Ali Mahdipour Shirayeh
  University of Toronto

- The receptor for hyaluronan-mediated motility as a regulator of drug sensitivity in triple-negative breast cancer
  Ms. Britney Messam
  Western University

ORAL 2B - Concurrent Session with Q&A - Patient Reported Outcomes and Patient Experience

Chairs:
Dr. Lynn Gauthier
Research-Centre of the CHU de Québec, Cancer Research Centre, Université Laval
Ms. Donna Pepin
Patient Partner

- Harnessing the Power of Integrated Patient Reported Outcomes (PROs): Exploring the Relationship Between Symptom Complexity and Health System Utilization
  Dr. Linda Watson
  Alberta Health Services

- Cancer Journey Experiences of Métis Albertans
  Ms. June Kima
  The Métis Nation of Alberta

- Experiences and Perceptions of Older Adults with Lower-risk Hormone Receptor-positive Breast Cancer about Adjuvant Radiotherapy and Endocrine Therapy: A Patient Survey
  Dr. Marie-France Savard
  University of Ottawa

WORKSHOP - Ethical Research with First Nations, Inuit and Métis

Facilitator:
Dr. Sara Urowtiz
Canadian Cancer Research Alliance, Canadian Partnership Against Cancer

Join this “fireside chat” to gain a better understanding about how researchers and Indigenous community leaders engage in health/cancer-related research that is ethical and benefits First Nations, Inuit and Métis. Three panelists will share their thoughts, experiences and opinions on how they have built ethical research partnerships, included diverse perspectives in their research and are guided by First Nations, Inuit and Métis research principles and protocols.

Sponsored by:
Mr. Adel Panahi
Métis Nation – Saskatchewan

Dr. Gary Groot
University of Saskatchewan

Dr. Jennifer Shea
Memorial University

3:15 – 4:15 pm

ORAL 3C - Concurrent Session with Q&A – Metabolism

Chairs:
Dr. Rachel Murphy  
University of British Columbia  
Mr. Angus Pratt  
Patient Partner

- Mevalonate metabolism as an actionable vulnerability of t(4;14)-positive multiple myeloma  
  Dr. Joseph Longo  
  Van Andel Institute

- Metabolic adaptations supporting the evolution of resistance to chemotherapy in breast cancer  
  Mr. Yannick Audet-Delage  
  University of Ottawa

- Targeting metabolism as a novel therapeutic strategy to suppress oncogenic MYC in group 3 medulloblastoma tumors  
  Emma Martell  
  University of Manitoba

ORAL 3D - Concurrent Session with Q&A - Equity in Cancer Care

Chairs:
Dr. Erin Strumpf  
McGill University  
Ms. Mei-Lin Yee  
Patient Partner

- Building on Existing Tools to Improve Chronic Disease Prevention and Screening in Public Health: A Cluster Randomized Trial  
  Dr. Aisha Lofters  
  Women’s College Hospital

- Exploring Health Equity in a Context of Cancer Prevention from Alberta Métis Perspectives  
  Dr. Angeline Letendre  
  Canadian Indigenous Nurses Association

- High prevalence of triple negative and quadruple negative breast cancer among women of African ancestry compared to Caucasian women  
  Shawn Hercules  
  McMaster University

3:15 – 3:45 pm

LS 3C - Lightning Session and Discussion - Bioinformatics and Genomics

- Circulating-tumour DNA Derived Nucleosome Positioning Captures Tissue Gene Expression And Transcription Factor Activity In Prostate Cancer  
  Ms. Xinyi Chen  
  Vancouver Prostate Centre

- In-silico selection of potential overexpressed cancer protein markers in blood plasma samples  
  Dr. Huiyan Li  
  University of Guelph

- Application of Generalized Multifactor Dimensionality Reduction (GMDR) methods to identify potential multi-SNP interactions associated with survival times in colorectal cancer patients  
  Mr. Aaron Curtis  
  Memorial University of Newfoundland
Orchestrating and sharing large multimodal biomedical data for more transparent and reproducible biomarker discovery

LDCT Lung Sub-cm Nodule Malignancy Prediction with Combination Radiomics and Machine Learning Models

Dr. Benjamin Haibe-Kains
University Health Network

Mr. Ian Janzen
BC Cancer

3:45 – 4:15 pm

LS 3D - Lightning Session and Discussion - DNA Damage and Repair

Investigation of the sexual dimorphic tumor suppressor role of DDX3X in melanoma
Mrs. Marine Lingrand
McGill University

High sensitivity of p53 mutated sonic hedgehog medulloblastoma to ATM inhibition
Mrs. Niusha Khazaei
McGill University

The role of HORMAD1 in DNA damage repair in squamous cell carcinomas
Mrs. Jennifer Gantchev
McGill University

Revival Stem Cells Mediate P53-Dependent DNA Repair to Regenerate the Intestinal Epithelium
Dr. Arshad Ayyaz
Mount Sinai Hospital

Beyond BRCA1 during DNA repair by homologous recombination (HR): characterization of the zinc finger protein POGZ as a novel pro-HR factor
Dr. Alexandre Orthwein
Lady Davis Institute

4:15 – 4:30 pm

End of Day Wrap Up

Thursday, November 11, 2021

12:00 – 12:15 pm

Welcome and Opening Remarks

12:15 – 1:15 pm

ORAL 4A - Concurrent Session with Q&A – Epigenetics
Chairs:
Dr. Gareth Williams
University of Calgary
Dr. Rosilene Kraft
Patient Partner

MYC drives aggressive prostate cancer by disrupting transcriptional pause release at androgen receptor targets
Dr. David Labbé
McGill University

Uncovering the dosage-dependent roles of Arid1a in gastric tumorigenesis for combinatorial drug therapy
Mr. Adrian Loe
Hospital for Sick Children

Systematic characterization of the bromodomain containing subunits within the mSWI/SNF chromatin remodeling complexes
Miss Lynda A
Université Laval

ORAL 4B - Concurrent Session with Q&A - Imaging and Radiation Oncology

Chairs:
Dr. Nawaid Usmani
University of Alberta
Ms. Katey Thompson
Patient Partner

Predicting Prostate Cancer Response to Brachytherapy Using AI Driven Digital Pathology
Dr. Calum MacAulay
BC Cancer

Ionizing radiation upregulates TKS5 expression in Glioblastoma
Ms. Lisa Decotret
BC Cancer

Anti-hypertensive Drug Modulates Cancer-Associated Fibroblasts to Improve Radiation Response
Ms. Che-Min Lee
BC Cancer Research Centre

12:15 – 12:45 pm

LS 4A - Lightning Session and Discussion – Chemoresistance

Overcoming cancer recurrence and metastatic progression by targeting anastasis
Dr. Wells Brown
British Columbia Cancer Research Institute

Identify Targetable Molecular Drivers of Chemotherapy Resistance in Gastro-Esophageal Adenocarcinoma
Ms. Iris Kong
McGill University

SMARCA4/2 loss inhibits chemotherapy-induced apoptosis by restricting IP3R3-mediated Ca2+ flux to mitochondria
Miss Kangning Yang
McGill University

Reciprocal metabolic and epigenetic adaptations to microenvironment stress exposes vulnerabilities in breast cancer
Ms. Geneviève Deblois
Université de Montréal

Immune checkpoint inhibitor resistance mutations in the IFN-JAK-STAT pathway increase melanoma sensitivity to oncolytic virus treatment
Dr. Ian Watson
Goodman Cancer Research Centre, McGill University

12:45 – 1:15 pm

LS 4B - Lightning Session and Discussion - Geriatric Oncology
Identifying gaps in the care of older Albertans with cancer: Analysis of patient-reported, clinical, administrative, and survey datasets
Dr. Fay Strohschein
University of Calgary

Prevalence of Preexisting Cognitive Impairment in Patients Treated for Cancer and Its Impact on Cognitive Outcomes
Nelly Toledano
University of Toronto

Care Provided by Older Adult Caregivers to a Spouse in Active Cancer Treatment: A Scoping Review
Mrs. Valentina Donison
University of Toronto

Comprehensive geriatric assessment and management for Canadian elders with Cancer: the 5C study
Dr. Martine Puts
University of Toronto

Self-management interventions for issues identified in a geriatric assessment: a systematic review
Mrs. Valentina Donison
University of Toronto

1:15 – 1:30 pm
Break

1:30 – 2:30 pm

ORAL 4C - Concurrent Session with Q&A - Patient Engagement

Chairs:
Dr. David Dawe
CancerCare Manitoba, University of Manitoba
Ms. Michelle Stratton
Patient Partner

The top ten research priorities for early stage colorectal cancer: A Canadian patient oriented priority setting partnership
Dr. Colleen Cuthbert
University of Calgary

Real-world implementation of an electronic patient-reported outcomes program in cancer centres in Quebec (e-IMPAQc): successes, challenges, and lessons learned
Dr. Sylvie Lambert
McGill University

Operationalizing Patient Identified Priorities in the Breast Cancer Community
Ms. Diana Ermel and Ms. Jenn Gordon
Canadian Breast Cancer Network

ORAL 4D - Concurrent Session with Q&A - Bioinformatics and AI

Chairs:
Dr. Franco Vizeacoumar
Saskatchewan Cancer Agency, University of Saskatchewan
Ms. Kirsten Efremov
Patient Partner

Meta-analysis of preclinical pharamcogenomics studies for biomarker discovery
Dr. Benjamin Haibe-Kains
University Health Network

Evolution of large copy number variants in breast cancer through genetic network rewiring
Dr. Elena Kuzmin
McGill University
Multi-omic classification and characterization of pancreatic neuroendocrine neoplasms

Dr. Sharon Gorski
BC Cancer

1:30 – 2:00 pm

LS 4C - Lightning Session and Discussion – Prevention

Mental Health Disorders, Cancer Risk, and the Mediating Role of Health Behaviours in the CARTaGENE Cohort Study

Miss Kaitlyn Gilham
The University of British Columbia

A population-based study of salpingectomy and risk of epithelial ovarian cancer in Ontario

Mr. Vasily Giannakeas
Women's College Hospital

Long working hours and prostate cancer risk: results from a population-based case-control study

Miss Charlotte Salmon
Institut national de la recherche scientifique - Centre Armand-Frappier Santé Biotechnologie

Synergistic effects of combined inflammatory cytokines IFNy, IL1ß, TNFa, and TGFß, on the proliferation and gene expression of breast cancer cells

Mr. Jorge Alfonso Leon Machado
Université de Sherbrooke

Dietary antioxidant formulation reduces carcinogen-induced DNA damage in bronchial epithelial cells in vitro

Dr. Jose Merlin Jayaraj
Dalhousie University

2:00 – 2:30 pm

LS 4D - Lightning Session and Discussion – Cancer Risk and Primary Prevention

Effets de pesticides agricoles sur le transcriptome de cellules cancéreuses

Miss Nadia Côté
Université de Sherbrooke

Sleep duration and ovarian cancer risk

Mrs. Flavie Marquis
Université de Montréal

Omega-3 fatty acids and inflammatory markers expression in normal breast tissue

Dr. Kaoutar Ennour-Idrissi
Laval University

Quality of life for men at risk of prostate cancer: a descriptive analysis from a large Canadian cohort

Ms. Roxane Tourigny
CHU de Québec, Université Laval

UVR on skin tissues induce the retrotransposon LINE-1 expression reactivation

Miss Marine Lambert
Research Institute of MUHC

2:30 – 2:45 pm
Break

2:45 – 4:15 pm

Keynote Session and Panel Discussion - Understanding and Managing Risk - The saga of hereditary cancer

Moderators:
Dr. Jacque Simard
Centre de recherche du CHU de Quebec, Université Laval
Ms. Nathalie Baudais
Patient and Family Representative

The cellular specificity of hereditary cancers syndromes: two short stories
Dr. David Huntsman
BC Cancer, University of British Columbia

The Saga of Hereditary Cancer 1987 to 2021
Dr. Steven Narod
Women’s College Research Institute

Family Histories and Hereditary Cancer Services: minimizing the bottleneck and opening the bottle
Dr. Nadine Caron
University of Northern British Columbia

4:15 – 4:30 pm

CCRC 2021 Wrap Up
